

TPP

Chopped Strands for
PP Reinforcement

PRODUCT FEATURES

- Boron-free ECR-glass
- Environment friendly
- Excellent mechanical properties
- Low discoloration performance
- Optimal strand integrity
- Improved flow
- Low fuzz
- Improved bulk density for less storage and handling costs

PRODUCT SPECIFICATION

TPP

• Glass Type	ECR (B-Free)
• Filament Diameter (μ)	Nom. 13
• Moisture Content (%)	Max. 0.07
• Sizing Type	Silane
• Loss of Ignition (%)	0,65 $\pm$ 0,15
• Compatability	Polypropylene
• Fibre Length (mm)	Nom. 4.5 - 6

PACKAGING

Type	Pallet Dimensions (cm)	Pallet Height (cm)	Quantity Per Pallet	Net Weight Per Pallet (kg)
Big bag	114 x 114	120 +/-20	1	1050 +/- 100

STORAGE

Products should be stored in original package in dry and dust free area. Storage temperature is between 10°C - 30°C at humidity between 50% - 75%. Pallets must be single stacked.

GUARANTEE

All physical & chemical properties represent average values and subject to normal production variations. The specifications are also subject to change. For current information please contact Beşler Office.
